

The brands of the BPW Group:

we think transport

Issue 12

What's news?

BPW looking back....

2016 has come with a rush and is passing us by very quickly. As fast as the year has gone by, we reflect on this year's BPW happenings. By no means has this been a slow, un-eventful year for BPW.

We started the year with the ECO Plus 3 Axle range being implemented. We took on Disc Brake Axle assembly (instead of importing complete) on our production line. In terms of new products we launched our BPW Landing Legs and Ermax Lights and Harnesses. A bold new venture was to acquire JMR, one of our spare parts distributors, to enable an own distribution network alongside the many independent distributors.

The international BPW Group has also ventured into new fields with new product development. We were awarded the first prize at the IAA Show 2016 for our Tyre Pressure Control System and second place for our trailer axle, electricity regeneration system. We also showed our own electric drive axle on our own BPW vehicle.

So here's to you all having a good, well deserved holiday. Travel safe and come back well rested for a good 2017. We look forward to another eventful but successful year.
