

**EXTENDED BENEFITS  
with ECO PLUS**  
VALID FROM JUNE 2017

**3+2  
years**  
**ECO Plus  
WARRANTY**

**5 years peace of mind.**  
With the **new ECO Plus warranty** from BPW.

**What's News?**

This month we have exciting news to share! We have reworked our Eco Plus warranty and will in future be able to give transporters 5 years peace of mind, as opposed to the existing 3 year warranty! Our experience with the Eco Plus axle range (9 ton for single wheels and 10 ton for dual wheel application) has been such that we can with confidence make this offer!

There will be some "t's & c's", the most important of which is a "controlled" service that will be required after a 3 year period, which will include re-greasing of the bearings amongst a few other things. To this end a BPW accredited workshop will have to be used. We are therefore currently engaged in a program to establish enough of these throughout the country. Fleets with own workshops can have them accredited as well. If you are interested, you can contact our offices to make the necessary arrangements.

The new Eco Plus warranty will therefore be called the "**3 + 2 warranty**" and will be effective for all trailers equipped with air suspended Eco Plus running gear, registered as from 1 June 2017.

Our new Eco Plus warranty shows BPW's commitment to our ethos "**we think transport**", enabling our customers to experience low cost of ownership backed up by superior product support.
