

NOT BATMAN, NOT SUPERMAN - BUT REMAN!

MAKES EVERYTHING ELSE LOOK OLD

ECO Disc brake caliper from **BPW Reman Line**

1 YEAR GUARANTEE

The BPW Reman Line is economical, fair value, safe and sustainable. We give brake calipers a second life, but they remain a BPW original.

Unlike various third-party suppliers, the BPW Reman Line ECO Disc brake calipers are assembled on the production line of the original equipment brake calipers and are 100% end-of-line tested. Only BPW can also ensure that the safety-relevant internal components of the adjustment unit are also replaced with new original parts and therefore meet the high BPW quality requirements.

The ECO Disc TSB brake caliper from the BPW Reman Line is the superhero among remanufactured parts. It is given a second life but remains a genuine BPW original, making it an economical alternative for older vehicles. The remanufactured brake calipers in the BPW Reman Line combine decisive advantages and therefore get more out of your operating costs.
